

# Asking Good Questions

Before you start the **ASPIRE** processes looking for information and while you look for info you must have open interesting questions.

*Learn from yesterday, live for today, hope for tomorrow. The important thing is not to stop questioning. Albert Einstein*

Your questions will direct your accumulation. They will help you focus, but remember it is important to keep coming up with questions as you go.

# A CCUMULATE

- + Identify what you want to learn
- + Accumulate the questions you will ask
- + Gather information related to your topic

# SORT

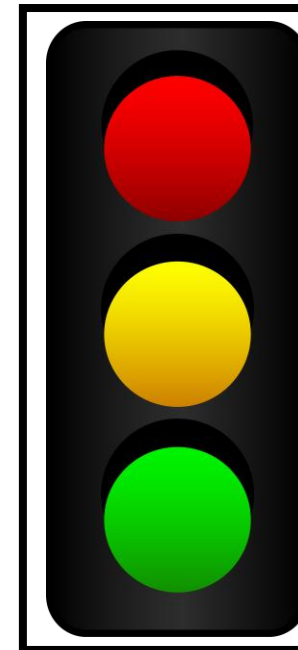

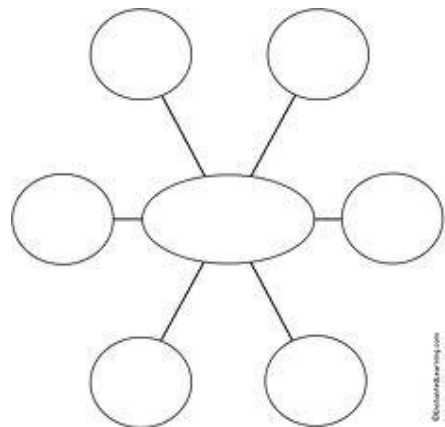

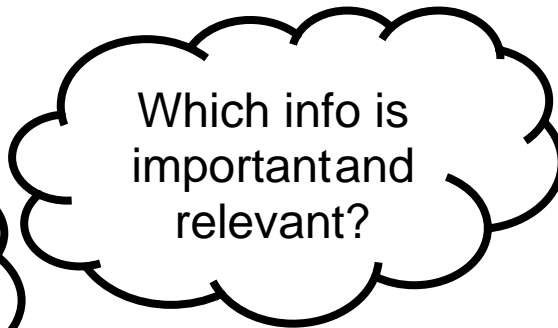

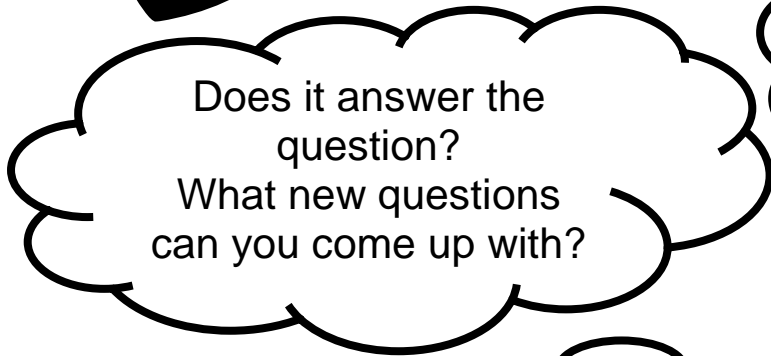

What do I want to find out?

What information is useful?

Who can I talk to?

Which info is not useful for your inquiry and needs to go

What areas needs a little more research?

Which info is good and needs highlighted and put in your notes?

USE ORGANISERS TO HELP SORT INFO

TAKE GOOD NOTES

DON'T GET HIGHLIGHTER HAPPY

# P L A N

Time and workload

Resources you need

Special skills you will need

How to present

Who is your target audience?

How will you present your findings?

Name: \_\_\_\_\_ Date: \_\_\_\_\_

### Sequence of Events

First

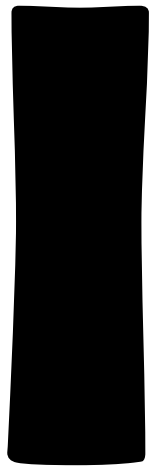

Next

Then

Last

Is there a logical sequence and order to what you are producing?

If you are planning on making, creating or testing, is there an expert you need to speak to or is there a particular skill you need?

# IMPLEMENT

-  Make / create
-  Test / solve
-  Read
-  Talk
-  Use a range of resources

Have you created anything new and of significant worth?  
Is your work original?  
Or just more of the same facts and info that are already out there?

# REPORT

find  
your  
**voice!**

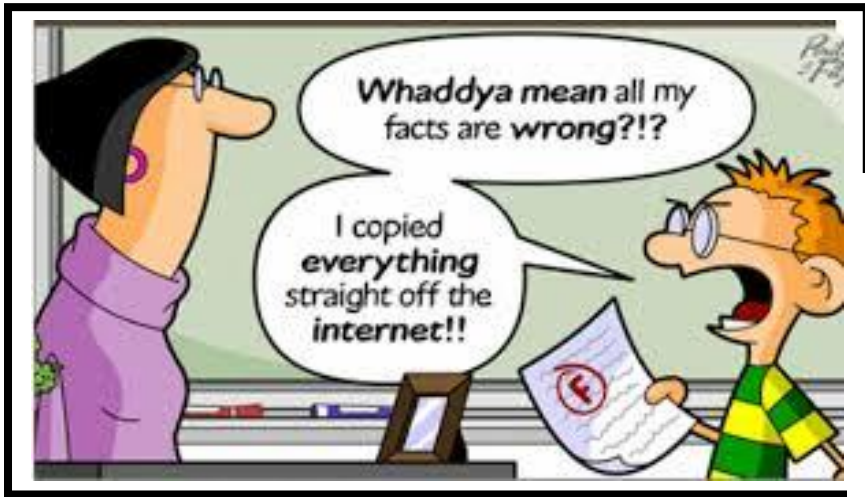

- Present
- Share
- Discuss
- Convince
- Range of presentation techniques

# EVALUATE

- + How did it go? Why?
- + What could have been done differently?
- + What do I do next?
- + Did I answer my questions?

- Excellent
- Very good
- Good
- Average
- Poor
